

Commuter Parking

Commuter parking and rat running are causing the residents and pedestrians of Headington Quarry serious problems and concerns about safety. Our roads and pavements are narrow and many residents do not have off-street parking.

Your car has been parked here on a regular basis and does not appear to belong to a local resident or visitor. Please consider other options to parking here such as Park and Ride, public transport etc.

Please accept our apologies if this notice does not apply to you.

Thank you.

This notice was produced on behalf of local residents by Friends of Quarry. If you would like to discuss this issue or concerns you have about commuter parking please contact Friends of Quarry through their website www.friendsofquarry.org
